# **SUICIDE PREVENTION & NALOXONE TRAINING**

*Learn how to save a life in 2 ways.*

Learn 3 steps anyone can take to prevent suicide and be a resource to those who might be struggling:

- Recognize warning signs
- Learn how to intervene
- Learn where to refer someone in crisis

Naloxone is an opiate antidote, meaning it can reverse the effects of an opioid overdose.

This training will provide participants with how to identify the signs and symptoms of an overdose, how to administer Naloxone, and an overview of the opioid epidemic.
